#### **SECTION 4: First aid measures**

• 4.1 Description of first aid measured	ures
· General information:	Take affected persons out into the fresh air.
	Position and transport stably in side position.
	Immediately remove any clothing soiled by the product.
	Symptoms of poisoning may even occur after several hours; therefore medical
	observation for at least 48 hours after the accident.
· After inhalation:	Supply fresh air. If required, provide artificial respiration. Keep patient warm.
	Consult doctor if symptoms persist.
	In case of unconsciousness place patient stably in side position for
	transportation.
· After skin contact:	If skin irritation continues, consult a doctor.
	Immediately wash with water and soap and rinse thoroughly.
· <u>After eye contact:</u>	Rinse opened eye for several minutes under running water. If symptoms persist,
	consult a doctor.
· After swallowing:	If symptoms persist consult doctor.
4.2 Most important symptoms	
and effects, both acute and	
delayed	Headache
	Dizziness
	Breathing difficulty
	Nausea
Hazards	Danger of impaired breathing.
4.3 Indication of any immediate	
medical attention and special	
treatment needed	If swallowed, gastric irrigation with added, activated carbon.
SECTION 5: Eirofighting massur	
SECTION 5: Firefighting measur	es
5.1 Extinguishing media	
· Suitable extinguishing agents:	CO2, powder or water spray. Fight larger fires with water spray or alcohol
	resistant foam.
<ul> <li>For safety reasons unsuitable</li> </ul>	
extinguishing agents:	Water with full jet
• 5.2 Special hazards arising from	
the substance or mixture	In case of fire, the following can be released:
	Carbon monoxide (CO)
	Nitrogen oxides (NOx)
	Under certain fire conditions, traces of other toxic gases cannot be excluded,
	e.g.:
	Hydrogen cyanide (HCN)
<u>5.3 Advice for firefighters</u>	
· Protective equipment:	Wear self-contained respiratory protective device.
	Do not inhale explosion gases or combustion gases.
	Wear fully protective suit.

Mount respiratory protective device.

official regulations.

system.

Dispose of fire debris and contaminated fire fighting water in accordance with

Collect contaminated fire fighting water separately. It must not enter the sewage

SECTION 6: Accidental release m	neasures
6.1 Personal precautions,	
protective equipment and	
emergency procedures	Ensure adequate ventilation
	Keep away from ignition sources.
	Use respiratory protective device against the effects of fumes/dust/aerosol. Wear protective equipment. Keep unprotected persons away.
6.2 Environmental precautions:	Do not allow product to reach sewage system or any water course.
<u> </u>	Inform respective authorities in case of seepage into water course or sew
	system.
	Do not allow to enter sewers/ surface or ground water.
6.3 Methods and material for	Disease of the metanicle allocated according to according
containment and cleaning up:	Dispose of the material collected according to regulations. Absorb with liquid-binding material (sand, diatomite, acid binders, university)
	binders, sawdust).
	Dispose contaminated material as waste according to item 13.
	Ensure adequate ventilation.
6.4 Reference to other sections	See Section 7 for information on safe handling.
	See Section 8 for information on personal protection equipment. See Section 13 for disposal information.
7.1 Precautions for safe	
handling	Keep receptacles tightly sealed.
handling	Store in cool, dry place in tightly closed receptacles.
<u>handling</u>	Store in cool, dry place in tightly closed receptacles. Keep away from heat and direct sunlight. Ensure good interior ventilation, especially at floor level. (Fumes are heavier t

• <u>9.1 Information on basic physic</u> · General Information	al and chemical properties
· Colour:	Opaque
· Odour:	Characteristic
Melting point/freezing point:     Boiling point or initial boiling point a     Lower and upper explosion limit	Undetermined. and boiling range 145 °C
· Lower:	1.2 Vol %
· Upper:	8.9 Vol %
· Flash point:	32 °C
· Ignition temperature:	480 °C
· pH	Not determined.
	Not applicable
· <u>Viscosity:</u>	
<ul> <li>Kinematic viscosity</li> <li>Dynamic:</li> </ul>	Not determined. Not determined.
· Solubility	
· water:	Not miscible or difficult to mix.
Vapour pressure at 20 °C:	6 hPa
<ul> <li>Density and/or relative density</li> <li>Density at 20 °C:</li> </ul>	1.15 g/cm³
• 9.2 Other information	1.10 9,011
· Appearance:	
Form:	Structurally viscous
Important information on protecti environment, and on safety.	
· Auto-ignition temperature:	Product is not selfigniting.
· Explosive properties:	Product is not explosive. However, formation of explosive air/ vapour mixtures are possible.
Solvent content:     Organic solvents:	36.3 %
